## **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: nonelected claims 14-20, 24-28 have been canceled.

## 2. Claims 13 and 21-23 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record does not anticipate nor render obvious to one ordinary skilled in the art a manufacturing process of a liquid crystal display device comprising a combination of various steps as claimed, more specifically, the first and the second shade films are formed to give a peripheral shading width formed by putting together the width of the first shade film and the width of the second shade film, the seal resin is positioned only between the second shade film of the second substrate and a transparent portion of the first substrate corresponding to the second shade film and UV ray can be transmitted through transparent portion of the first substrate, hardening the seal resin by irradiation to only one side of the first substrate of the combination with ultraviolet ray through the transparent portion of the first substrate.

Morii ('394) discloses a manufacturing process of a liquid crystal display device comprising first and shading films formed in a peripheral region. However, Morii fails to disclose 'the first and the second shade films are formed to give a peripheral shading width formed by putting together the width of the first shade film and the width of the second shade film, the seal resin is positioned only between the second shade film of the second substrate and a transparent portion of the first substrate corresponding to the second shade film and UV ray can be transmitted through transparent portion of the first substrate'.

Application/Control Number: 09/881,753 Page 4

Art Unit: 2871

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## **CONTACT INFORMATION**

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Toan Ton whose telephone number is (571) 272-2303.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
